MOBILE PALLET RACKING

*One Stop Storage Solution
In Industrial Racking System*

“Store More, Utilize Less Space”

Features

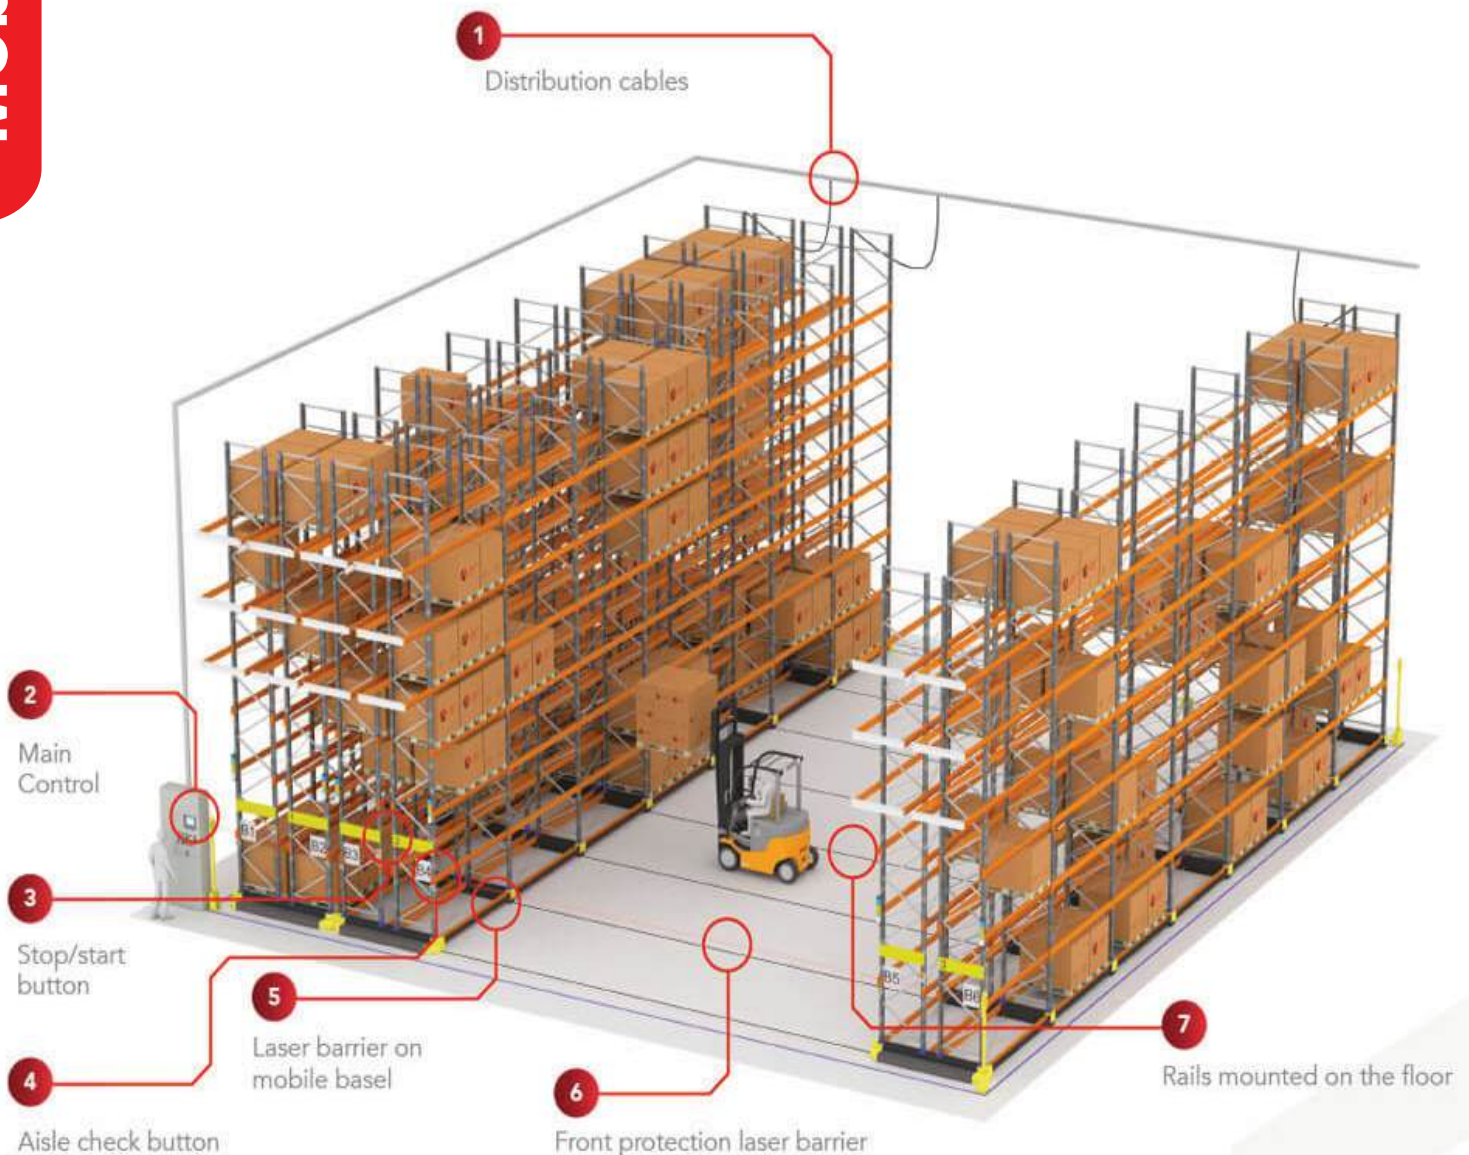

- By eliminating multiple fixed aisles, mobile racking can nearly double your storage capacity within the same footprint
- Maximize your valuable warehouse square footage by storing more pallets in a smaller area.
- Reduce picking and travel times by creating aisles only when required, streamlining warehouse operations.

Mobile pallet racking is a revolutionary storage solution designed to conquer your warehouse space limitations. It offers the best of both worlds: high-density storage capacity and direct access to individual pallets.

The Salient features of the system are :-

- ◆ **Motorized Bases**
Electric motors power the mobile bases, allowing for smooth and controlled movement along the tracks.
- ◆ **Remote Control Operation**
Operators can safely open and close aisles using a remote control, eliminating manual effort
- ◆ **Safety Features**
Mobile racking systems incorporate built-in safety features like anti-collision sensors and weight limits to ensure safe operation.

Think outside the box
